SCAVENGER HUNT WINNERS!

THE EAGLES HAVE LANDED!

As the semester picks up and the workload intensifies, it is important to remember that hardwork and dedication pays off in the end. Keep in mind your goals to keep you motivated. Although it might be hard to find your motivation sometimes, trying is better than giving in. Keep your head up high and aim for your dreams.

HAPPY INDEPENDENCE BELIZE!!!

Belize has celebrated its 39th year of independence! Normally this would be the time that we express our patriotic love for our country by parading the streets, and enjoying the calypso music. However, we must now adapt to the new norm of celebrating virtually. The experience has united us as Belizeans and made us stronger as a country.

We hope that the difficult situation at hand did not ruin your chance to celebrate and enjoy the holiday with your family.

FUN FACTS ABOUT BELIZE

- The name "Belize" originated from the Mayan word "Balix" meaning "muddy waters" or another deviation of a Mayan word "Belikin" meaning "land facing the sea".
- The first people to inhabit Belize were the Maya around 1500 B.C.E.
- One of the only countries in Central America whose official language is English.
- Belize has the only jaguar reserve in the world known as Cockscomb Basin Wildlife sanctuary.

Student Testimonials

"This fall semester makes it one year since I've made the best decision to attend Galen University. Even though things have taken an unexpected turn, I'm glad I could continue my studies through this pandemic. Kudos to Galen University and the exceptional faculty for going the extra mile to ensure the students receive the best quality education at this time. Most importantly, making it easy to navigate the software we use daily. I look forward to graduating soon with the fantastic friends I now call family here at Galen University."

-Bijanna Vasquez

"My experience at Galen has been exceptional and has exceeded my expectations. Though sometimes the workload and assessment were challenging, the teachers are very approachable and are always ready to assist."

-Alexandrina Turton

"Galen! Without a doubt, this has been an amazing journey that I continue to experience. For most of my journey, I have been an online student but even so, I have met incredible friends, faculty, and staff that are amongst the most kind-hearted and helpful people I have met in my life. Choosing Galen has definitely been one of the best decisions I've made. "

-Jorge Ek

"Growing up I have always been fascinated with the concept of bones and history. Everything about Anthropology and Archaeology burns a flame of passion within me. Galen University is allowing me to achieve my dream of pursuing a Bachelor's degree in Anthropology. Special thanks to teachers like Ms. Gibbs that provide hands-on experience within the field of interest. Not only are the teachers considered to be inspiring through the service they provide but, also I have found great friends within them."

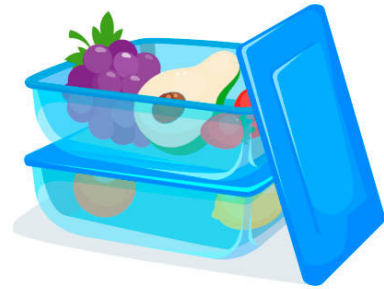

-Akirah Shaheed
